

CAPILLARIES

RODS

The high precision capillaries we produce are drawn to meet your exacting dimensional needs. Furthermore we can provide non-circular tubes

We have a wide range of diameters of precision finished rods, manufactured with tight tolerances. Furthermore we can provide non circular rods.

Outer diameter (OD):	0.1 to 10 mm
OD /ID ratio:	1.1 to 15
OD tolerance:	+/- 10 μ m
Wall thickness	> 40 μ m
Length*	50 to 1500 mm

Outer diameter (OD):	0.1 to 10 mm
OD tolerance:	+/- 10 μ m
Length*	50 to 1500mm

*The maximum length is limited by the authorized size of the package transporter.

*The maximum length is limited by the authorized size of the package transporter.

Materials :

These capillaries can be made from Silica F300, fluoride silica, doped silica, soft glass.
